

## 1000 flowers

This fanciful scope features "millefiori", the beautifully cane worked beads from Venice, on the exterior and in the cell. The body of the scope is powder coated in black and a riot of glass beads decorate it. The liquid filled cell uses those same beads along with flowers, wireworking, glass cane, and crystals in bright primary colors. It's a garden inside - with a thousand flowers.

2 mirror 6 point star. Eyepiece fitted with a 3 diopter glass magnifying lens. Size approximate: 8 1/4" x 2 3/4".
