

seahorsing around

This is a delightful scope - full of fun and wonderful watery colors. A white scope, decorated with glass seahorses, real shells and sand in shades of turquoise, coral and tan, sits atop a seahorse sculpture base. The liquid filled transparent cell has the same pieces inside, as well as dichroic glass, wire work, beads, crystals and lampworked glass. It's an underwater playground for seahorses.

3 mirror system. 3 diopter magnifying lens. Size approx.: base is 9" high with a 3 1/2" footprint. an 8 1/2" x2 3/4" scope sits on the base. total height 17 1/2".
